Commissioned Masterpieces & Limited Editions

HAGOP DHABAGHIAN

Hagop Dhabaghian is a visionary contemporary artist whose works embody timeless beauty, profound symbolism, and an unyielding pursuit of meaning. Guided by a deep belief that art is not merely to be viewed but *experienced*, Hagop creates pieces that serve as both visual masterpieces and enduring legacies.

His artistry blends classical precision with modern sensibilities, weaving together texture, form, and light to evoke both intimacy and grandeur. Each creation carries a narrative — a reflection of resilience, hope, and the human spirit — making his work resonate across cultures and generations.

Known for transforming personal inspiration into universal symbols, Hagop's unique style makes his art equally at home in private collections, cultural institutions, and organizational spaces of honour. Whether through one-of-a-kind commissions, limited edition series, or collectible miniatures, his vision is to create works that stand as testaments of identity, achievement, and legacy.

“Hagop’s art transforms into symbols of achievement, legacy and identity.”
